Products:

IAS has developed the Resource Management Decision-Making Tool (RMDT)™ which is an enterprise level application that maps and links your agency's Table of Organization, Requirements, Budget, Acquisition Planning, Contract Management and Closeout functions. It provides insight on how best to Plan, Execute, Report, Decide-On, and Adjust how resources are allocated throughout your organization in order to operate more efficiently and effectively. The RMDT™ will enable leaders on all levels of an organization to be more informed about what requirements are needed and how resources are being used so that better financial decisions can be made to achieve your organization's mission objectives.

"Providing Results For Your Success!"
